

W = Width, D = Depth, H = Height

230V~ 50Hz

Y-connector

To connect the interior heater and engine heater together.
Contains contact rails only to secure the electrical connections.

The engine heater must be connected to a extension cable only.
NOT directly to the Y-connector (A).

The DEFA PlugIn Y-connector must not be installed/placed under
the engine to avoid mechanical stress or directly splashing from
the road.

Fasten the Y-connector using cable ties max 5,0cm on the cable
from the PlugIn contact (B). Do not bend the cable closer than
5,0cm from the PlugIn contact (C).

DEFA AS is conforming to the requirements of both ISO 9001-
2008, ISO 14001:2004 and OHSAS 18001:2007. In addition
to this, our engine heaters and cables are conforming to the
requirements of ISO/TS 16949:2002.

Item number

460853 (Weight: 23gr.)

Assembly box: 100 units.

Part of

DEFA Y-connector is delivered separately and as a part of DEFA WarmUp.

Use & Installation

Confer the enclosed product installation guide.
